

FUND-RAISING PROJECTS BY STUDENTS

5330

Fund-raising projects initiated by students for specific education-related purposes shall be permitted if approved by the school principal and the appropriate Assistant Superintendent. Such fund-raising shall be listed separately from student activity accounts and shall be approved for that one time only so that future student groups need not feel compelled to continue the same project.

State law prohibits games of chance and raffles. All funds shall be raised through productions, sales, or services.
