Re: City School District of the City of New Rochelle

Dear Mr. Weiser:

At the request of our client, the City School District of the City of New Rochelle, this will confirm the advice previously given to ARAMARK by Dr. Jeffrey Korostoff, in his then-capacity as Interim Superintendent of Schools, that the School District and its Board of Education wish to replace the entire ARAMARK on-site facilities management team with a new team satisfactory to the School District.

Unless you feel it necessary, I don't think there is a need to go into detail regarding the reasons for this decision, other than to say that the School District wants a new team to have demonstrated proficiency in managing maintenance and repair projects undertaken both by School District staff and by outside contractors, in monitoring required record-keeping and training under best practices and applicable federal and state requirements, and in supervising facilities staff performance and monitoring overtime.

The School District understands that it may take ARAMARK some time to assemble and propose a suitable team, and the current ARAMARK management team has responsibilities for summer maintenance work and repairs. I assume that you will be discussing the process and timetable with the new Superintendent of Schools, Dr. Brian G. Osborne, and with Dr. Korostoff when you meet.

Once we have a process and timetable in place, it will be appropriate to review the formal agreement proposed by ARAMARK, which we understand was never finalized.

Please feel free to call me if you have any questions.

Sincerely,

Jeffrey A. Kehl
